

SPRING TURKEY

2000-2001

HUNTING REGULATIONS
STATE OF MONTANA

General Regulations

These regulations apply to all legally described spring male turkey hunting districts and areas.

Spring Season — April 8 - May 7, 2000
April 7 - May 6, 2001

Licenses — The following licenses are available at all Fish, Wildlife and Parks offices and most license agents throughout the state.

| | Res. | Nonres. |
|---|--------|----------|
| Spring Season Turkey License | \$5.00 | \$13.00 |
| Conservation License (required prerequisite*) | \$4.00 | \$5.00 |
| Upland Game Bird License (required prerequisite*) | \$6.00 | \$110.00 |
| Resident Youth (15, 16, 17 years of age) Bird License (required prerequisite*) | \$3.00 | NA |

*The resident Sportsman's License, the nonresident Big Game Combination License or the nonresident Deer Combination License serves as the prerequisite license for both the conservation license and the upland game bird license.

Montana residents 12-14 years of age, 62 years of age and older or holder's of a Disabled Resident Conservation License, need only the conservation license and a valid turkey license to hunt turkey. Persons under 12 years of age may not hunt turkey.

Limit - One wild, male turkey per spring season, see exception below. Turkey license must be stamped "SPRING."

Exception: Spring turkey hunters may harvest two male turkeys in the spring season in Administrative Region 7, or one male in any other sanctioned hunting area and another in Region 7. Administrative Region 7 includes: Garfield, Rosebud, Treasure, Prairie, Custer, Powder River, Richland, Dawson, Wibaux, Carter and Fallon counties. The total combined limit of spring and fall season cannot exceed two turkeys.

Avoid Violations of the Law - It is illegal to shoot any game bird on, from, or across any public highway, or the shoulder, berm, or borrow-pit, or right-of-way of any public highway, and/or motor driven conveyance.

Checking Stations - All hunters are required to stop as directed at all designated check stations on their way to and from hunting and fishing areas, even if they have no game or fish to be checked.

Evidence of Sex - No person shall transport within the state any turkey taken during the spring turkey gobbler season unless one leg and foot are left naturally attached for evidence of sex. The leg and foot shall remain attached at all times while being transported from the place where taken until they have arrived at the permanent residence of the possessor.

Recorded Animal or Bird Sounds - It is unlawful to use any recorded or electrically amplified bird or animal calls, sounds or imitations of bird or animal calls or sounds to assist in the hunting, taking, killing or capturing of any wildlife except predatory animals. (MCA 87-3-108).

Hunter Education - both resident and nonresident youths 12 -17 years of age must provide a Certificate of Competency in the safe handling of firearms before they may purchase a hunting license.

Hunting Hours - One-half hour before sunrise to one-half hour after sunset. Complete sunrise/sunset tables as adopted by the Fish, Wildlife & Parks Commission are available at all FWP offices and most license agents.

Indian Reservations - Hunters hunting on Indian reservations should check Indian reservation regulations because season dates, shooting hours and bag limits may differ from state regulations.

Landowners Permission - Hunters are reminded that landowner permission is required to hunt on private land.

Means of taking - Wild turkey may be taken with a shotgun not larger than a ten gauge; long, recurve or compound bow and arrow;.

The following methods or devices are prohibited in taking game birds and animals:

1. The use of any chemical or explosive device attached to an arrow to aid in the taking of wildlife.
2. A bow sight may be attached to any bow to aid in the taking of wildlife; however, bow sights, bows or arrows which use artificial light, luminous chemicals such as tritium, or electronics are prohibited.

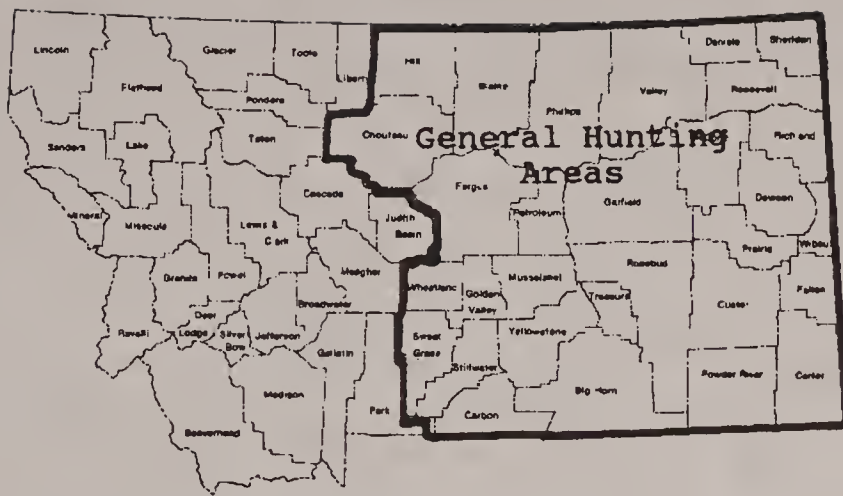

Restriction - Baiting prohibited. Baiting shall mean the placing, exposing, depositing, distributing, or scattering of corn, wheat, or other grain so as to constitute a lure or attraction. Nothing shall prohibit the taking of birds in or over standing crops or harvested cropland or grains scattered as a result of agricultural harvesting.

Tagging - Immediately after harvesting the wild turkey, cut out the proper month and day from the license and affix to the turkey so it remains secure and visible at all times.

Wanton Waste - It is illegal to waste any part of any game animal, game bird, or game fish suitable for food. Following are turkey parts suitable for food: breasts, thighs and wings.

Defensive Turkey Hunting Tactics - A safe turkey hunter, like a safe driver, is defensive minded. Below are some tips you should consider:

- Select the largest stump, blow-down, tree-trunk, or rock to place your pack against when calling; a hunter is more likely to spot another hunter moving to the front or side than from behind.
- Eliminate the colors white, red, black and blue from your hunting outfit; this includes handkerchiefs, socks, underwear, etc.
- Select your calling spot in open timber rather than thick brush; eliminating movement is a key to success, not concealment.
- In areas of high hunter concentrations, wear blaze orange when walking to and from your vehicle; this is also a good idea when carrying a bird out of the woods.
- Be discreet when imitating the sound of a gobbling turkey.
- When songbirds, crows or your turkey shuts up--look out; there's a good chance another hunter is moving in on your bird.
- Never move, wave or make turkey sounds to alert another hunter of your presence; remain still, cough or holler. A quick movement may be your last. Use common sense.

The following counties are open to all hunters who hold a valid current year Spring Turkey License. Special permits are not required in these areas: Hill, Chouteau, Fergus, Wheatland, Sweet Grass, Stillwater and Carbon counties and all counties lying east of these.

Special Permit Hunting Areas
